

VIRGINIA and WASHINGTON D.C. DNR INQUIRIES

Do Not Resuscitate Bracelets and Necklaces

We are approved providers of bracelets and necklaces for the Commonwealth of Virginia and Washington DC. Those districts accept only certain products. We work with these officials and provide what they require. Other states may not have restrictions and you are free to purchase products of your choice from anyone, including us. You need to ask your physician regarding this.

For those residents of the Commonwealth of Virginia and of Washington DC, we must be provided with a copy of the signed DNR form for your state. For those areas that do not have restrictions or requirements, then any of our bracelets and necklaces may be purchased for DNR purposes with no paperwork necessary on our part.
